

Unique Amenities to Enhance Your Experience

Patti Stetler

What is the adage, the third time is a charm? "Well, I think the fourth time is, at least for me," says Patti Stetler about her most recent replacement surgery. The Battle Creek resident had both

hip and knee replacements in the past two years, "but the last one at the BCHS Orthopaedic Renewal Center (ORC) was definitely my best one. It was outstanding. They made me feel important. They cared."

"One of the unique things about this surgery was the physical therapy. My physical therapy was in a group setting in the Patient Activities and Rehabilitation Center (PARC) creating a special camaraderie with the other hip or knee patients."

Do You Have Questions About Your Knee or Hip Pain?

Our center sponsors **FREE seminars** about knee and hip pain. You will learn about the causes and many of the latest treatments, plus tips about diet, exercise and medication.

Contact us for information about the time and location of our next seminar.
